Volunteers Needed to Help with Community COVID-19 Vaccination Clinic

January 19, 2021

Media Contact: AJ Renold (anjuli.renold@redcross.org)

The Brazos County Vaccine Taskforce is gearing up to manage a community COVID-19 vaccination clinic at the Brazos Center. To do this successfully, volunteers are needed to help coordinate the effort. The American Red Cross is taking the lead in recruiting and managing volunteers for the hub.

An estimated 30 volunteers will be needed each day, starting January 25, between the hours of 8:00 am – 5:00 pm. Volunteers will help with traffic flow, registration, vaccinations, monitoring, among other needs.

High-priority needs include:

1. Spanish speakers
2. Data-entry/Registration (computer competent)
3. Vaccine administrators (medical license or experience required)

Volunteers may sign up at: <https://timecounts.org/bv-vaccinehub/forms/51501>

Registered volunteers will receive information about available positions and how to schedule shifts via the Timecounts.org system.

Once up and running, the vaccination clinic will be by appointment only. Information on how to register for an appointment will be forthcoming. For now, all COVID-19 vaccine information can be found at the Brazos County Health District website, www.BrazosHealth.org.
